Completing a wide variety of business sites to include Real Estate & Private Rentals, Salon, Pizza & Casual Dining Restaurants, Business profiles sites for corporations, along with craft small to medium Business E-commerce sites as well.

Our service to you is to give your wonderful Business an online web presence that represents you in a way that gives a "WOW" factor for guest first impressions, detailed location information with feature rich pages and media options available.

New Core Site - Base Build Module

- ☑ **SSL Security** Removes warning to users your site is unsecure also aids in online retail purchases, for restaurants interfacing with DoorDash or Grubhub & private online ordering
- ☑ **Professional Site Redesign & Layout** responsive to viewer device Ie: Mobile, desktop & tablet views. Excellent informative landing pages to offer detail company info to your visitors
- ☑ **5 Business Landing Pages** Choose from Menu, Contact Us, Gallery, About Us, Events, 360 Degree Showroom Views, Deals or Specials and Catering or Custom
- ☑ **Site Favicon for Mobile and Desktop** Bookmarking and Desktop Icon
- ☑ **Hosting** for site files can remain on an existing server or if needing competitive pricing for server expenses, happy to discuss during proposals
- ☑ **Access Privileges** for allowing a Site Admin quick and easy changes with visual editor for price adjustments, photos, blogging & events
- ☑ **Daily Traffic Monitoring Stats** sent to Admin Email. Site stats include how people find your location, what search engines used and location referral data
- ☑ **Security Suite –** Spam bot removal, attacks and malware scanning – Malicious JavaScript deterrent, Rest and API call refusal systems
- ☑ **Search Engine Optimization.** If using a Go Daddy or WIX builder backend system currently but not seeing Meta header information on pages for search engines to index the site, we can help! Setting these options correctly will also index your listing on search engines higher
- ☑ **Professional email services** if you would like to have an email address @yourdomainname.com as example offering full control of business email solutions

Recommended Module Options

Full Screen Slider Module – This is increasingly becoming widely popular for advertising specials and events. Found on tops of pages and is a "MUS HAVE" for mobile device viewership!

Menu Module for Restaurants – Initially can use existing embedded menus on pages or PDF download; However, would encourage working with our newer menu module for the best in menu management, menu item listing options and photos. This system uses a simple field array for making changes to menus as easy as editing and saving an Excel sheet to manage future product price changes.

Online Ordering Module & Table Reservation Module – Optional for Restaurant locations

Retail Delivery & Pickup Modules – Optional and ideal for Light Speed/Shop Keep, Square or Toast point of sale checkout systems.

Site Delivery

All new sites are staged on a separate staging server until Rough Release 1 has been completed. When the site is ready to go live, it will be deployed remotely to your domain and instantly active.

Included search engine optimization initialized from your active domain and usually takes about 3 to 5 days to propagate new pages and new Meta data to listing results.

Timeline for Rough Release 1 is **7 Business days**. A setup fee on Monthly interest fee financing plans required to begin development. All feature Modules are Paid in full.
